

Bid Finder — Partner Offer

Precision Facility Solutions LLC · bryanbyfield0@gmail.com

Email only — no phone calls. Research and demo ready for a free pilot.

What partners get

Two products for your government-contracting clients:

1. **Weekly bid-match reports** from the official SAM.gov public Contract Opportunities CSV — filtered by NAICS, set-asides, and location, with plain-English fit reasons and supplier quote-request email drafts.
2. **Bid Finder web app** — white-labeled with your name, logo, and colors for your clients.

Partner pricing (simple)

Option	Terms
Referral	30% recurring for 12 months on each referred client. Client list price \$29/mo or \$290/yr .
White-label	\$15 per client / month (minimum 3 clients), or \$99/mo flat for up to 10 clients. You brand it and set your own resale price (suggested \$39–\$79/mo).
Free pilot	30 days , up to 5 of your clients , no card, no contract. Success = a client submits a quote or bid from a match.
Payment	PayPal invoice. Partner payouts by PayPal.

Why partners use this

Free tools (APEX bid match, SAM.gov alerts) show a long list. Bid Finder tells your client which few they can actually win this week, why, and drafts the supplier quote emails — under your brand.

Legal note

Built from the official SAM.gov public data extract (not scraping). Source attribution required. Not affiliated with GSA. Open bids lack published dollar values.

Ready for a free pilot? Email bryanbyfield0@gmail.com with up to 5 client profiles (NAICS, set-asides, state/ZIP, what they sell).
